SKILLS

- **HTML, CSS, JavaScript (JS), TypeScript (TS):** Proficient in building responsive and accessible user interfaces. Experienced with modern JavaScript (ES6+) and TypeScript for enhanced type safety. Skilled in using CSS frameworks like Bootstrap, Tailwind CSS, Material UI, and Styled Components for creating visually appealing designs.
- **React.js:** Expertise in developing dynamic front-end applications with React, including state management with Redux, component optimization, and integrating React Router for navigation.
- **Node.js & Express.js:** Knowledgeable in building server-side applications with Node.js and Express.js. Experienced in creating RESTful APIs, handling asynchronous operations, and managing server-side logic.
- **Python & Pandas:** Strong foundation in Python for scripting and data analysis. Proficient in using Pandas for data manipulation, cleaning, and visualization.
- **C# (.NET Core, ASP.NET):** Experienced in building scalable back-end applications and APIs using .NET Core and ASP.NET. Skilled in database management with Entity Framework and developing robust server-side solutions.
- **SQL & Database Management:** Solid experience with SQL for querying and managing relational databases. Proficient in using Entity Framework for data persistence and managing database schemas.
